FLAKEBOARD ADDS 9 EXCLUSIVE DESIGNS TO ITS 2009 TFM COLLECTION

Markham, CANADA – Flakeboard is proud to launch its 2009 thermally fused melamine collection with the addition of nine exclusive designs:

Cocktail Series

Butterschnapps WF293
Cocoa Bliss WF295
Mochatini WF296
Vanilla Stix WF294

New Exotics

Cosmo WF298
En Vogue WF297
Nirvana WF299

New Age Walnuts

Noce Panaro WF300
Noce Vettore WF301

Flakeboard has set the bar high with the addition of the new Cocktail Series, a narrow-cut Pearwood species with subtle planking tones inspired by Contemporary European fine furniture. The exotic offerings have been expanded with concepts that make a distinct design statement and lend a striking creative edge for horizontal and vertical applications. Finally, having no boundaries for delivering new design, a search across the ocean has given rise to an updated European walnut in two variations.

Flakeboard's Design Debut introduction will take place on May 15 and will kick-off the launch of the 2009 TFM Collection featuring 116 designs.

Flakeboard has four particleboard and four MDF plants in North America, with melamine lamination situated in Ontario and New Brunswick, Canada; Simsboro, Louisiana; and Bennettsville, South Carolina.
